Review: Beer & Brewer Magazine Issue 7 Summer 2008

“Weka Native Lager is bold and feisty. It was awarded a Gold Medal at Brew NZ 2008 in the Classic Hybrid NZ Style.

Weka Native Lager pours golden with lively carbonation and a generous billowing head.

The nose is of pale malt with fruity/ floral notes, and an underlying spicy alcoholic character. Pleasant floral hops feature in the flavour upon a malty background. Wheaty/yeasty flavours come through once the warms a little. Its smooth mouthfeel and full body is lifted by its sparkling carbonation offering a crisp finish. Bitterness is medium with lingering clean fresh hop flavour.”
